- Ensure graphic standards and brand consistency from UI/UX designs
- Search engine optimization

Main Technologies: Javascript, React, React Helmet, SCSS, Typescript

ABOUT ME

Passionate about technology and art since I remember my existence. I discovered in programming a way to bring together the best of both worlds, thus maintaining a high level of dedication and detail.

As a focused and highly creative person, I love to use my free time to improve myself professionally and personally, studying new trends in the job market, producing electronic music, traveling around the world, and practicing physical exercise.

CAREER HISTORY

Uniplaces
